## **“The Role of Healing in Evangelization”**

Many Catholics today think of miraculous healings as something relatively rare, found mainly in the lives of great saints or at shrines like Lourdes. Yet Scripture shows that healings are meant to be a normal part of the life of the Church, especially in the context of evangelization. Scripture professor Mary Healy will explain the implications of the Church’s mandate to be a “field hospital” in a world filled with people in need of healing.
